### Skin and Scalp diseases.

Skin and Scalp diseases.

MR. W. B. JENNISON, of No. 35-East 20th. Street, Chicago, Ill., suffered the tortures of this disease for more than twenty years. The best skin per pole lists of Chicago, New York and Philadel has pronounced his case incurrable. Perind the period has pronounced his case incurrable. Perind and entire hody. Mr. David Robinson, her had cured himsel of a bade ases of Psoriusis of ten years standing, with D. D. D., prevalled upon him to try this preparation. Mr. Jennison, says: "I commenced the use of D. D. D., and during the first month I saw little, if any improvement, but was persuaded by Mr. Robinson to continue its use. I persavered in using the remedy, and I now devoutly thank God that I did. For the first time in twenty years I am free from the awful, scaling blotches of this terrible disease. Once more I am free from the bondage of these torments of hell, and can again make a presentable appearance before my fellow men. I carnestly beg every sufferer from a disease of the skin to immediately begin treatment with D. D. D. Use it—presevere with testick to it—and you will find that it will cure anyone."

We unhesitatingly give this pre-

scription our highest endorsement. The wonderful cures it is making in this city are simply astonishing.

### 6888 KILL THE SERPENT

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this most horrible of all diseases will pollute and vitiate the purest, healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison and the skin breaks out in a red rash: the glands of the groins swell, the throat and mouth become ulcerated,

the hair and eyebrows drop out, and often the entire surface of the body scovered with copper-colored splotches and sickening sores and eruptions. Contagious Blood Poison is as treacherous and elusive as the serpent. You may be carrying it in your veins with no visible evidences

of its existence; for while mercury and potash seem tive work within, or the patient is constantly harassed by returning symptoms and unmistakable traces of the blood polysical wreather.

After suffering twelve years from Contagious Blood Poison, and trying the best physicians obtainable, and all the patent medicines procurable, and steadily continuing to grow worse, I gave up all hope of recovery, and physicians pronounced my case incurable. Hoping against hope, I tried 8.8.8. Ilmproved from the first bottle, and after taking twelve was cured sound and well, and for two years have had no return or symptom of the vile disease.

Warsaw, N.C. H. M. REGISTER. H. M. REGISTER.

chronic invalids from the effects of Blood Poison know the uncertainty of the mercury and potash treatment-that it stifles but does not kill the serpent. As long as there is life in the serpent there is danger in its fangs; and while your blood is tainted there is danger of infec-Safety lies only in crushing out the life of the loathsome disease and killing the serpent. For many years S. S. S. has been known as an antidote for Blood Poison. It is a remedy composed entirely of vegetable ingredients, and we offer \$1,000 for proof that it contains the least particle of mercury, potash or

other mineral. It thoroughly purifies the blood, improves the appetite and digestion, and tones up all parts of the system. In chronic and long-standing cases of Blood Poison, S. S. acts promptly and without leaving any bad after-effects. Write us about your case, and our physicians will advise with-

out charge, and we will mail you free our home-treatment book telling all about Contagious Blood Poison and its different stages and symptoms.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Thousands of people afflicted with this hideously disfiguring disease are daily suffering the mest excruciating mental anguish, believing they are doomed to carry its awful scaling blotches until death rolleves them. The medical profession, and the greatest skin specialists of the world have always considered the disease as absolutely incurable. The patient research and scientific experiments of Dr. Decatur D. Dennis, the noted Dermatologist, have, however, resulted in his being able to offer to suffering humanity the
